SUMMARY

A driven fifth-semester Information Systems student at Bina Nusantara University with a strong passion for bridging the gap between business strategy and technology. I specialize in business process analysis and system modeling, with hands-on experience in data analysis using SQL to uncover meaningful insights. My ability to lead and communicate effectively has been honed through practical experience as a Laboratory Assistant. Eager to apply my skills to deliver innovative solutions in a Business Analyst, Data Analyst, or Consultant role.

EDUCATIONAL BACKGROUND

BINUS University   *September 2023 – Present*
Information System Undergraduate, (GPA : 3,77/4,00)
- The program covers business processes and cloud computing, database management and data analytics, as well as software and systems development. The curriculum also emphasizes professional skills such as communication, leadership, design thinking, and project management, equipping students to bridge technology with business needs.

SMA Regina Pacis Jakarta   *July 2020 – June 2023*
Science Major
